The Land of Stories, The Wishing Spell talks about Alex and her twin brother, Connor. They get teleported into a world, a Disney kind of world. They have to go on an adventure around this world to collect items to go back home. It may sound easy but Alex and Connor ran into many problems on their way. Will they make it out?

Generally speaking, I think this book could be any age but it would be best for 3rd graders to 8th graders. It is both good for a gift to receive and a book to get from a library. I would personally love to get this book as a gift more.

This is a really fascinating and stunning book! It is so fun to read! Once you start reading it, you don't want to stop. If you like Disney, magic, adventure, and/or fantasies, this book would be great for you! There is nothing I don't like about this book. This book is just fantastic!
